DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12, 14 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In this case,

Claims 1-2 and 12: A) "modulating the direction of polarization" in lines 3 of claims 1-2 and "enables modulation of a direction of polarization of light", as stated in claim 12, makes the claim language confusing because it is not clear whose light is being polarized.

Claims 1-2: the "detector for illuminating" a sample makes the claim language confusing because normally detectors are being used for detection.

Claim 14: "providing a light source device for modulating a direction of polarization of light" makes the claim language confusing because it is not clear whether the light source provides a light, or modulates a light provided by another means, or does both, provides a light and modulates it? Clarification is required.

Claims 3-11 are rejected by virtue of their dependency on claims 1-2.

Allowable Subject Matter

3. Claims 12, 14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
4. Claim 13 is allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection necessitated by the present amendment.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.

It is not possible to apply the prior art to claims 1-11 due to the reasons stated above in paragraphs 1-2.
